# CMMC
Version 1.0

CMMC
Version 2.0

- 5 Maturity Levels: Advanced, Proactive, Good, Intermediate and Basic
- 171 total security practices, with each level cumulatively adding more to reach the 171 total
- Third party assessments recommended across all of the maturity levels

CMMC Version 1.0 was released January 31, 2020. CMMC Version 2.0 was announced November 4, 2021. There is still a pending ruling to see if these changes will go into effect. For now, the rules surrounding version 1.0 are still applicable.

This information was obtained from the DoD Acquistion and Sustainment Office, to learn more visit: https://www.acq.osd.mil/cmmc

- 3 Maturity Levels: Expert, Advanced and Foundational
- 110 total security practices across the 3 levels, all based in the NIST 800-171 Framework
- Annual Self Assessments for Level 1, Triennial Third Party Assessments for Level 2, and Triennial Government Led Assessments for Level 3
