Try Us For Free!

We want the opportunity to show you how great our service is and how quickly our technicians can resolve any tech issues you may be having. That's why we're offering **2 hours of service FREE**, no catch and no commitment.

Let us fix something for you (onsite or remote - your choice) and if you love the way we work than we can setup a free consultation to see what Valley Techlogic plan would be the best fit for your business.

PROBLEM SOLVING SOLUTIONS

This is a small snap shot of the problems a Valley Techlogic service plan solves.

UNRELIABLE SUPPORT

Whether you have in-house support that's stretched thin, a service solution that's not reachable in times of a crisis, or no support at all - a Valley Techlogic service plan will be your full time IT solution.

We have both co-managed and full service solutions to fit every business model.

CYBERSECURITY CONCERNS

Cybersecurity concerns are growing and having no protection can be disastrous for your business. We offer protection through the state of the art software we provide.

We also can help you address compliance concerns (HIPAA, CMMC etc).

UNPROTECTED DATA

In addition to providing cybersecurity measures in all of our plans, we also have a triple layer backup program, TechVault.

We also utilize the features provided by the Microsoft solutions we incorporate (we're a Microsoft certified partner) to their fullest potential to protect your data.

ABOUT OUR COMPANY

Established in 2004, Valley Techlogic Inc services a wide spectrum of small and medium sized businesses in their day to day technology needs.

With cybersecurity features built into every aspect of our packages you can be certain your offices devices and network will be protected as we meet your individual goals, whether it be backing up your data, providing troubleshooting & device repair services or helping you accomplish your technology project goals.

ABOUT OUR SERVICE

SERVICE GOALS DRIVEN BY PROVEN METRICS
LEAD TO HIGHER CUSTOMER SATISFACTION

Many of our clients are leaving situations where they have been frustrated by their current IT provider or solution, we listen to client feedback as and respond quickly to requests to provide a better customer experience.

EXCELLENT SERVICE

EXCELLENT RESPONSE TIME

CLIENT TESTIMONIALS

We've been in business for 62 years and have used Valley Techlogic for IT support and monitoring for 4 years and I have to say there company and employees are a pleasure to work with, knowledgeable, very helpful and best of all, communicate on your level of experience very well!
